## Plenary Lectures

- 1. Tribological behaviour of W-DLC against an aluminum alloy in lubricated sliding**  
Sukanta Bhowmick, Anindya Banerji, Ahmet T. Alpas .....3
- 2. Global impact of friction on energy consumption, economy and environment**  
Kenneth Holmberg, Ali Erdemir .....11
- 3. Polymer tribology: Current state and applications**  
N.K. Myshkin, S.S. Pesetskii, A.Ya. Grigoriev .....17
- 4. Nanomechanical investigations of graphene by friction force microscopy**  
Ernst Meyer, Shigeki Kawai, Gregor Fessler, Alexis Baratoff, Enrico Gnecco, Remy Pawlak,  
Tobias Meier, Sara Freund, Antoine Hinaut, Res Jöhr, Marcin Kisiel, Urs Gysin, Thilo Glatzel .....24

## Tribological Properties of Solid Materials

- 5. An experimental investigation and improvement of insulated rail joints**  
Fathi A. Elshukri, Roger Lewis .....29
- 6. Experimental investigation of the friction and wear behaviour with an adapted ball-on-prism test setup**  
Viktor Krasmik, Josef Schlattmann .....36
- 7. Experimental investigation of friction coefficient and wear rate of brass and bronze under lubrication conditions**  
Salima Senhadji, Farid Belarifi, François Robbe-Valloire .....44
- 8. Study behavior the coefficient of friction and wear rate of the brass alloy CuZn30 on counterface material conversely**  
Amir Al-Sammorraie, Dragan Milcic, Sadoon Ayed .....49
- 9. The investigation of friction and wear characteristic of cast iron against manganese phosphate coated and austempered compressor crankshaft**  
Bariş İshak Sipcikoğlu, Burcu Yiğit, Hüseyin Oflaz, Zeynep Parlar, Vedat Temiz .....56
- 10. Study of stainless steels at boundary layer friction in corrosive environments**  
Mara Kandeve, Galina Klitcheva .....62
- 11. Corrosion behavior of compocasted ZA27/SiC<sub>p</sub> composites in sodium chloride solution**  
Biljana Bobić, Ilija Bobić, Aleksandar Venc, Miroslav Babić, Slobodan Mitrović .....67
- 12. Nanoindentation of ZA27 alloy based nanocomposites reinforced with Al<sub>2</sub>O<sub>3</sub> particles**  
Dragan Džunić, Slobodan Mitrović, Miroslav Babić, Ilija Bobić, Marko Pantić, Dragan Adamović,  
Branislav Nedeljković .....73
- 13. Optimization of wear behaviour in aluminium hybrid composites using Taguchi method**  
Blaža Stojanović, Miroslav Babić, Sandra Veličković, Jasmina Blagojević .....81

<b>14. Neural network based analysis of tribological behavior for an epoxy-aramid system</b> Igor Roman, Sorin Ciortan, Iulian Gabriel Birsan .....	87
--	----

## Surface Engineering and Coating Tribology

<b>15. Tribological characterization of smooth and artificially textured coated surfaces using block on ring tests</b> Anastasios Zavos, Pantelis G. Nikolakopoulos .....	97
<b>16. An overview on the tribological behaviour of nitro-carburised steels for various industrial applications</b> George Pantazopoulos, Pandora Psyllaki .....	106
<b>17. Review above applying active anode protection at some dynamic petroleum equipment's in order to reduce wear</b> Razvan George Ripeanu, Vasile Ispas, Dorina Ispas .....	116
<b>18. Explanation of the wear behavior of NCD coated carbide tools facilitated by appropriate methods for assessing the coating adhesion deterioration at elevated temperatures</b> K.-D. Bouzakis, G. Skordaris, E. Bouzakis, D. Tasoulas, P. Charalampous, S. Kombogiannis, O. Lemmer .....	126
<b>19. Mechanical and tribological properties of nanolayered TiAlN/TiSiN coating</b> Aleksandar Miletić, Pal Terek, Peter Panjan, Lazar Kovačević, Dragan Kukuruzović, Branko Škorić .....	137
<b>20. Surface roughness and its effect on tribological performance of magnetron sputtered nitride coatings</b> P. Terek, D. Kukuruzović, A. Miletić, P. Panjan, L. Kovačević, B. Škorić .....	143
<b>21. Tribological and corrosion properties of nickel coating on carbon steel</b> J. Vite-Torres, M. Vite-Torres, R. Aguilar-Osorio, J.E. Reyes-Astivia .....	149
<b>22. Mechanical testing of electronic printed circuit boards and soldering alloys</b> Alina Maria Petrescu, Georgiana Ionela Padurar, Andrei Tudor, Nicolae Alexandru Stoica .....	155
<b>23. The tribological performance of hardfaced/thermal sprayed coatings for increasing the wear resistance of ventilation mill working parts</b> Aleksandar Vencl, Boris Katavić, Danijela Marković, Marko Ristic, Bojan Gligorijević .....	159
<b>24. Experimental investigation of wear resistance of models hard faced with various filler metals</b> Dušan Arsić, Vukić Lazić, Milan Mutavdžić, Ružica Nikolić, Srbslav Aleksandrović, Slobodan Mitrović, Milan Đorđević .....	170
<b>25. Wear-resistance study of nano-modified coatings by TIG surfacing process</b> Plamen Tachev, Hristo Kondov, Mara Kandeve, Elisaveta Tasheva .....	176

## Lubricants and Lubrication

<b>26. Up-to-date tribology equipment for standard qualification of greases</b> Alexander Minewitsch, Aleksandar Marinkovic .....	183
--	-----

<b>27. The influence of degumming process on tribological behaviour of soybean oil</b>	
Constantin Georgescu, Liviu Catalin Şolea, Lorena Deleanu .....	192
<b>28. Physical and chemical properties of the biodegradable universal tractor oil based on the vegetable oils</b>	
Sreten Peric, Bogdan Nedic, Mladen Vuruna, Mile Stojilkovic .....	198
<b>29. Tribological properties of biodegradable universal tractor transmission oil</b>	
Mile Stojilković, Mirjana Kolb .....	203
<b>30. Analysis of HD journal bearings considering elastic deformation and non-Newtonian Rabinowitsch fluid model</b>	
Juliana Javorova, Anelia Mazdrakova, Iliya Andonov, Alexandru Radulescu .....	209
<b>31. Low Reynolds number non-isothermal microbearing gas flow</b>	
Snezana S. Milicev, Nevena D. Stevanovic .....	220
<b>32. Rheological methods for evaluation of the base oils obtained by conditioning of hydraulic used oils</b>	
Alexandru Valentin Radulescu, Liana Bogatu, Irina Radulescu .....	225
<b>33. Influence poly-molecular adsorption on the rheological behaviour of lubricating oil in a thin layer</b>	
Igor Mukhortov, Elena Zadorozhnaya, Igor Levanov, Kseniya Pochkaylo .....	230
<b>34. Influence of the metal-plating additive “Valena” on the wear of spheroidal graphite cast iron microalloyed by Sn</b>	
Mara Kandeва, Boryana Ivanova, Dimitar Karastoyanov, Aleksandar Vencl, Emilia Assenova .....	236
<b>35. Specifications influence on composition and tribological characteristics of industrial gears lubricants</b>	
Pero Dugić, Marica Dugić .....	243
 <b>Tribotesting and Tribosystem Monitoring</b>	
<b>36. New universal tribometer as pin or ball-on-disc and reciprocating pin-on-plate types</b>	
Hakan Kaleli .....	251
<b>37. High temperature test device for targeted lubricant, coating and work roll material evaluation applied in hot rolling – Tribotherm</b>	
Tilo Reichardt, Delphine Reche, Miriam Sartor .....	257
<b>38. Static coefficient of rolling friction at high temperature</b>	
Branislav Jeremic, Milan Radenkovic, Petar Todorovic, Ivan Macuzic, Marija Jeremic, Vladimir Kocovic .....	262
<b>39. Elasticity and damping of AVM-2055 rubber mounting pads: Theoretical determination and experimental verification</b>	
Ioannis Tsiafis, Maria Xanthopoulou, Polihronia Mamouri, Christos Tsiafis, Petar Todorovic .....	266
<b>40. Effect of vibration velocity on the wear under conditions of abrasive friction</b>	
Mara Kandeва, Tinka Grozdanova .....	272

<b>41. The control of the lubricant film by the resistive method for scuffing</b>	
Michaela Fomin Vasilache, Ilie Musca .....	279
<b>42. Continuous, online detection of critical operating conditions and wear damage with a new oil condition monitoring system, WearSens®</b>	
Manfred Mauntz, Ulrich Kuipers, Jörn Peuser .....	283
<b>43. Reduction and maintenance of turbochargers by applying valid tribological constructing</b>	
Vlatko Marušić, Josip Jukić, Luka Marušić, Željko Ivandić .....	289

## **Tribology of Machine Elements**

<b>44. Fretting phenomenon based reliability for design</b>	
Milosav Ognjanović, Miloš Ristić .....	297
<b>45. Static performance of surface textured magnetorheological fluid journal bearings</b>	
Dimitrios Bompos, Pantelis Nikolakopoulos .....	303
<b>46. Effect of coverage of graphite on self-lubricating plain bearings</b>	
Nada Bojic, Dragan Milcic, Milan Banic, Miodrag Milcic .....	309
<b>47. Tribological properties of self-lubricating sliding bearings made of PTFE and POM-based composite materials</b>	
Miloš Stanković, Aleksandar Marinković .....	314
<b>48. EHD contact modelling of Gleason bevel gears</b>	
Szabolcs Szávai, Sándor Kovács .....	319
<b>49. The influence of the running-in process of the gear flanks on the load distribution in simultaneously meshed tooth pairs</b>	
Mileta Ristivojevic, Aleksandar Dimic, Predgrad Dobratic .....	329
<b>50. The effect of interference on the friction torque characteristics of TPU based rotary lip seals</b>	
Dilek Bulut, Vedat Temiz, Zeynep Parlar .....	336
<b>51. Experimental research on the determination of the friction forces from dynamic seals of the hydraulic cylinders</b>	
Corneliu Cristescu, Catalin Dumitrescu, Radu Radoi, Liliana Dumitrescu .....	344

## **Tribology of Manufacturing Processes**

<b>52. Friction conditions in tool-chip interface of orthogonal cutting with large negative rake angle</b>	
Angelos P. Markopoulos, Nikolaos E. Karkalos, Nikolaos M. Vaxevanidis, Dimitrios E. Manolakos .....	355
<b>53. Considerations on the impact of cutting parameters selection on the wearing of cutting tools made of syntherized metallic carbides</b>	
Ion Nae, Gabriela Cristina Ionescu, Octavian Narcis Ionescu .....	361

<b>54. New trends in cutting technologies: Application of high pressure jet assisted machining</b> Branislav Sredanović, Gordana Globočki-Lakić, Davorin Kramar, Janez Kopač .....	367
<b>55. Experimental study of adhesive wear of a holding device using a cross cylinders tester</b> M. Vite-Torres, E.A. Gallardo-Hernández, E. Cruz-Ovando .....	376
<b>56. Characteristics and limitations of physical tribo-modelling in deep drawing of thin sheet metal</b> Milentije Stefanović, Dragan Adamović, Zvonko Gulišija, Srbislav Aleksandrović, Milija Kraišnik, Vesna Mandić .....	382
<b>57. The compliance and load capacity of contacts based on friction</b> Vladimir Kočović, Marija Jeremić, Petar Todorović, Branko Tadić, Djordje Vukelić .....	388
<b>58. Influence of lubricant type on the surface quality of aluminium parts obtained by ironing</b> Dragan Adamović, Milentije Stefanović, Miroslav Živković, Slobodan Mitrović, Jelena Živković, Fatima Živić .....	397
<b>59. Two-phase ironing process in conditions of ecologic and classic lubricants application</b> Milan Djordjevic, Srbislav Aleksandrovic, Vukic Lazic, Dusan Arsic, Milentije Stefanovic, Dragan Milosavljevic .....	407

## Design and Calculation of Tribocontacts

<b>60. Effect of surface roughness on the thermoelastic behavior of friction clutches</b> Oday I. Abdullah, Josef Schlattmann, Michael Lytkin .....	417
<b>61. A numerical model for mechanical interaction of rough surfaces of the “piston-cylinder liner” tribosystem</b> Yurii Goritskiy, Yuliya Ismailova, Konstantin Gavrilov, Yurii Rozhdestvensky, Aleksei Doikin .....	427
<b>62. Methods of assessing the resource bearing crankshaft of internal combustion engine based on the calculation of hydro-mechanical characteristics</b> I.G. Levanov, E.A. Zadorozhnaya, A.L. Dudnikov .....	432
<b>63. A study the axial and radial rotor stability of the turbo-machinery with allowance the geometry of the surface and properties of the lubricating fluid</b> Elena Zadorozhnaya, Sergey Cherneyko, Maksim Kurochkin, Dmitriy Sorokin .....	438
<b>64. The influence of friction coefficient on a stress and strain distribution on block-on-ring FEM model</b> Mihail Botan, Doina Boazu, Constantin Georgescu, Lorena Deleanu .....	446
<b>65. Computer simulation of continuous SPD processing of commercially pure titanium using a virtual full factorial experiment with account of the influence of friction factors</b> V.I. Semenov, S.-J. Huang, L.Sh. Shuster, V.G. Shibakov, A.G. Raab .....	454
<b>66. Modelling of nonlinear dynamic of mechanic systems with the force tribological interaction</b> Victor Musalimov, Konstantin Nuzhdin, Irina Kalapyshina .....	460
<b>67. Physical and mathematical modeling of tribosystem “working tool – land”</b> Konstantin Borak .....	468

## **Biotribology / Nano and Microtribology**

<b>68. Influence of the biomaterial porosity on the host tissue response, the friction and adhesion</b> Fatima Zivic, Nenad Grujovic, Slobodan Mitrovic, Dragan Adamović, Vojislav Petrovic, Luka Bukvic, Andreja Radovanovic .....	475
<b>69. Sliding friction and wear performance of the nano-bioceramic <math>\alpha</math>-Al<sub>2</sub>O<sub>3</sub> prepared by high energy milling</b> Mamoun Fellah .....	485
<b>70. Tribology in micromechatronic devices</b> Jelena Manojlović, Andrija Milojević, Miša Tomić, Vukašin Pavlović, Miloš Milošević .....	499
<b>71. Estimation of triboresistance of erythrocytes during surface scanning with the use of atomic force microscopy</b> Victor M. Musalimov, Pavel P. Kovalenko, Svetlana Yu. Perepelkina .....	509
<b>72. AFM surface roughness and topography analysis of lithium disilicate glass ceramic</b> Marko Pantić, Slobodan Mitrović, Miroslav Babić, Danimir Jevremović, Dragan Džunić, Fatima Živić, Dragan Adamović .....	514
<b>73. Some aspects concerning the behaviour of friction materials at low and very low sliding speeds</b> Nicolae Alexandru Stoica, Andrei Tudor .....	522
 <b>Other Topics Related to Tribology</b>	
<b>74. Sources for future energy carriers: Water energy – tribological aspects</b> Wilfried J. Bartz .....	531
<b>75. Research on tribology phenomena in every day life</b> Dušan Stamenković, Milan Nikolić, Ljubislav Vasin, Milan Banić, Aleksandar Miltenović .....	535
<b>76. Tribology in human walking</b> Milan Nikolić, Dušan Stamenković, Miloš Milošević, Milan Banić .....	543
<b>77. The role of self-organization and selective transfer in frictional coatings formation</b> Emilia Assenova .....	549
<b>78. The effect of static friction about loading of Coulombian dampers</b> Narcis Cerbu, Andrei Tudor, Nicolae Stoica, Alina Maria Petrescu .....	558
<b>79. Energy balance of friction and friction coefficient in energetical interpretation</b> Sergey V. Fedorov .....	563
<b>80. Trigger of coupled singularities in vibrations of the system with Coulomb's type frictions</b> Katica R. (Stevanović) Hedrih .....	572
<b>81. Research on tribology in Southeastern Europe: A bibliometric study</b> Nikolaos M. Vaxevanidis, Aleksandar Vencel, Pandora Psyllaki .....	583

## **Trenje, habanje i podmazivanje**

### **82. Tribološke karakteristike galvanskih prevlaka cinka**

Desimir Jovanović, Bogdan Nedić, Goran Rozing .....599

### **83. Istraživanje triboloških karakteristika različitih ulja primenjenih u tribomehaničkom sistemu**

Pavel Kovač, Dušan Ješić, Nikola Gvozdenuć, Marin Gostimirović, Vladimir Pucovsky .....605

**Authors Index** .....611
